**Re. Reuben Mattice Drain, Glen Becker Drain and Van Moorsel Drain, S. 76 Report**

Further to an error noted by a landowner that a property had been missed in the assessment schedule for the Glen Becker Drain, please find enclosed the updated report. No changes have been made to the content of the report other than updating the schedule of assessments associated with the Glen Becker Drain (Schedule 'B' and Schedule 'E').

Property 70, which was missing from the previous November 2023 assessment, has been added to the schedules, and the remaining assessments within the Glen Becker watershed have been updated accordingly to account for this additional property.

Please feel free to reach out if you have any questions or concerns.

Sincerely,

Regards,

Monica Shade, P. Eng.
